USA 5 Peaks Lightweight Toilet

Our USA 5 Peaks Lightweight Toilet recirculating portable toilet is a top grade American toilet that has been built to withstand any environment. The USA 5 Peaks Lightweight Toilet is a top seller because of its ability to be used as a standard chemical toilet and as a recirculating flush-type chemical field toilet. This very light weight and versatile toilet boasts a foot operated flushing system and a high quality interior that maximises comfort and efficient operation. The fresh water inlet provides a safe and more sanitary system for users and can handle heavy traffic. Its sleek look is not all, it's resistant to graffiti and clean smooth interior makes the cleaning simple and pain free!
